Samriddhi Khare

Philadelphia, PA | 215-397-8111 | samriddhikhare8@gmail.com

Data Analyst and Urban Planner with over 4 years of professional experience in planning consulting and analysis. Excels in generating statistical and geospatial insights for economic policy, labor markets, and urban systems.

Experience *(please see Portfolio for demonstrated GIS experience)*

Aug 2024 – Feb 2026 **Data Analyst, Econsult Solutions** | Philadelphia, PA

Skills: GIS, Economic Modeling, Spatial Research and Analysis, Adobe, Writing

- Led development of machine learning models in Python and R to estimate economic and fiscal impacts of transit projects, housing, and urban green infrastructure supporting over 30 local and nationwide agencies.
- Independently managed production of GIS deliverables for my team in ArcGIS and Adobe, creating visual products for public and commercial clients.
- Spearheaded firm-wide integration of ArcGIS StoryMaps, GIS in Power BI, and Adobe Creative Suite, to make spatial analyses deliverables accessible to wider audiences, improving firm capabilities and project acquisitions.

Project: Fiscal Analysis of Housing Dashboard (Power BI, R, Python, Excel)

- Designed a Power BI dashboard to communicate analyzed housing construction impacts, integrating datasets on assessed value, municipal expenditures, and tax base demographics, for technical and non-technical audiences.
- Modelled regression analyses to quantify the marginal impact of housing density across 145 municipalities and 8 housing types.
- Directed client engagement using visualizations/dashboards to communicate complex financial data.

Project: Transit Economics Analysis and Planning (Excel, ArcGIS, R)

- Developed an Excel input-based tool to model financial scenarios (visually comparing ROI, IRR, and NOI trends) for construction projects and business operations, informing process improvement and investment decision-making.
- Authored and designed memos and reports for city, state, and transit leadership to inform regional and institutional policy.

Feb 2023 – Feb 2024 **Graduate Researcher, University of Pennsylvania** | Philadelphia, PA

Project: School Closure Vulnerability Index (R, SQL, Research, GIS)

- Developed a school closure vulnerability index to inform the School District of Philadelphia's facilities planning process by extracting socioeconomic information from government databases and analyzing it with spatial data in Excel, Python and ArcGIS.
- Designed maps and visual materials to facilitate public agency and community stakeholder engagement.

Oct 2020 – Jan 2022 **GIS Consultant, Studio Sakha** | Nagpur, India

- Analyzed raster data in ArcGIS and Python for an airport expansion site plan.
- Presented data to over 100 domain experts, government agencies and litigation/press during regular data sharing sessions

Education

Dean List Graduate, 2024 Master of City Planning, University of Pennsylvania

Coursework**:** GIS, Spatial Analysis, Urban Economics, Quantitative Analyses, Public Policy

Graduate, 2022 Bachelor of Architecture, Visvesvaraya National Institute of Technology

Skills

Software: *GIS, R, Python, SQL, Power BI, Tableau, MS Suite (Advanced Excel Capabilities), Adobe*

Skills: *Economic Research and Modeling, Spatial & Statistical Analysis, Mapping, Research Writing*
